

# The Hands-Free Ease of a T&S Sensor Faucet...

## ...and the Reliability of a Pre-Rinse Unit!

### The Newest T&S Ware-Washing Faucet is a Hybrid: Meet the ECR-D0810-107 ChekPoint™ Rinse Faucet

We've combined the reliability of a ChekPoint™ sensor faucet with the outstanding rinsing ability of a B-0107 spray valve. The result: the **ECR-D0810-107 ChekPoint Rinse Faucet** with pre-rinse capabilities.

T&S engineers designed this model to meet the needs of unique ware-washing applications where something more than our traditional pre-rinse unit is needed.

The **ECR-D0810-107 Rinse Faucet** has a rigid 90° riser with a 360° swivel which effectively allows the user to direct the B-0107 spray head wherever it is most needed.

**ECR-D0810-107**

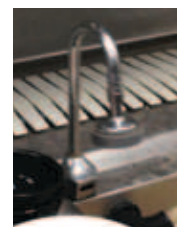

### ECR-D0810-107 FEATURES

- The easy installation of a T&S ChekPoint deck-mount electronic sensor faucet with below-deck electronics
- Heavy-duty brass construction
- Adjustable temperature control mixing valve
- Check valves for crossflow prevention
- Transformer plug-in with 12 ft. split tail power cable; additional power options available
- Rigid 90° riser and reliable B-0107 spray outlet with water-saving 1.42 GPM (EPA 2005 compliant)

### OPTIONS

Other options may be available, including:

- T&S rigid nozzle (rigid gooseneck shown, above right)
- Choice of any T&S spray outlet (B-0107-C spray head shown, right)

### COMPLIANCES

- ASME A112.18.1/CSA B125.1
- ANSI A117.1 (ADA)
- UL 1951
