Grocery/Retail

杂货和零售行业

For decades, T&S Brass has been supplying quality faucets and plumbing products to a wide variety of markets, including grocery and retail. With more than 60 years in the market, T&S has a deep understanding of the special challenges of grocery stores and retail settings, and has a range of products to help meet these unique needs.

数十年来，T&S向各个领域提供高品质的商用五金产品（包括杂货和零售行业）。60多年来，每一件天仕产品，都展现了行业的最高标准。因为关注，所以专业。T&S针对杂货和零售行业研发的产品，能满足这个行业的独特专业需求。

Water and energy conservation — T&S has been a leader in water conservation for decades with various low-flow products, sensor and metering faucets, and low-leak cartridges. Our pre-rinse units have long been the standard of the industry while still delivering class-leading cleaning times.

And with water savings comes energy and cost savings as well: every gallon of water conserved is one less gallon of water that a store will need to pay to heat or dispose of.

节水环保 — T&S公司始终保持着节水环保产品的领先地位。我们提供各种低流量的产品、感应龙头、计量式龙头、防漏阀芯。帮助客户节省水费的同时，也节约了加热水所需的各种能源费用。

“Lead-free” — Legislation in several states restricts the amount of lead in plumbing fixtures to less than .25 percent. T&S makes a complete line of products compliant with these requirements for grocery and retail establishments that want to reduce the potential for even minimal lead exposure.

“Lead-free” — 美国几个州政府立法要求五金产品中铅含量必须小于0.25%。T&S拥有完全满足此项法律的产品线，提供更健康的优质产品。

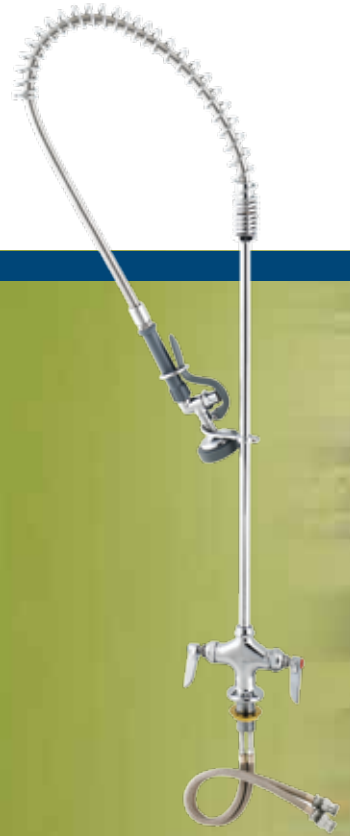

Antimicrobial — Hygiene is an important consideration in a grocery or retail setting, especially in food prep and restroom areas where sanitary fixtures are important. T&S makes a range of products with an antimicrobial coating that cleans easily and keeps plumbing surfaces more sanitary by inhibiting the growth of microbes that can cause illness.

抗菌概念 — “清洁卫生”在整个杂货和零售行业中是最重要的。T&S提供一系列具有抗菌涂层的产品，确保五金产品表面不易滋生细菌，远离疾病。

Butcher, baker, and flower maker — We got our start creating pre-rinse units for foodservice use, but now make products specific to a wide range of applications in a grocery or retail setting. T&S has quality products for meat departments, bakeries, floral departments, delis, pharmacies, maintenance, and restrooms.

See the inside illustration to get an overview of where T&S products have been engineered to meet these needs and more in a typical grocery/retail setting.

屠宰场、面包房和花艺房 — 在食品餐饮设备行业使用的各种产品，如今在杂货和零售行业也被广泛使用。肉制品部门，面包房，鲜花部门，熟食品部，药房，维护部门和卫生间，您都能看到天仕高质量产品。
