

Designed to last:

T&S CONCEALED WIDESPREAD FAUCETS

50% THICKER NOZZLE WALL
vs. competitors for industry-leading nozzle strength.

WIDE RANGE OF NOZZLE SHAPES AND SIZES,
multiple gooseneck options ranging in size with high-arc goosenecks and other specialized configurations available.

OUTLET DEVICE OPTIONS

help boost efficiency and protect safety. Multiple flow rates — 0.5, 1.0, 1.2, 1.5 or 2.2 gpm — balance performance and water conservation. • Customize flow pattern to meet facility needs with aerators, laminar flow outlets, non-aerated spray outlets or plain-end nozzles with flow control.

COMMERCIAL-DUTY CONSTRUCTION

with professional-grade materials provides long-lasting durability.

SWIVEL-TO-RIGID LOCK WASHER

gives installers flexibility to choose a swivel or rigid nozzle option.

MULTIPLE HANDLE VARIETIES

including 4-arm, 4"- or 6"-wrist, and lever handles, as well as handles with metering options. ADA requirements met with lever, wrist-action, 4-arm or metering handles.

INTERLOCKING SPLINES

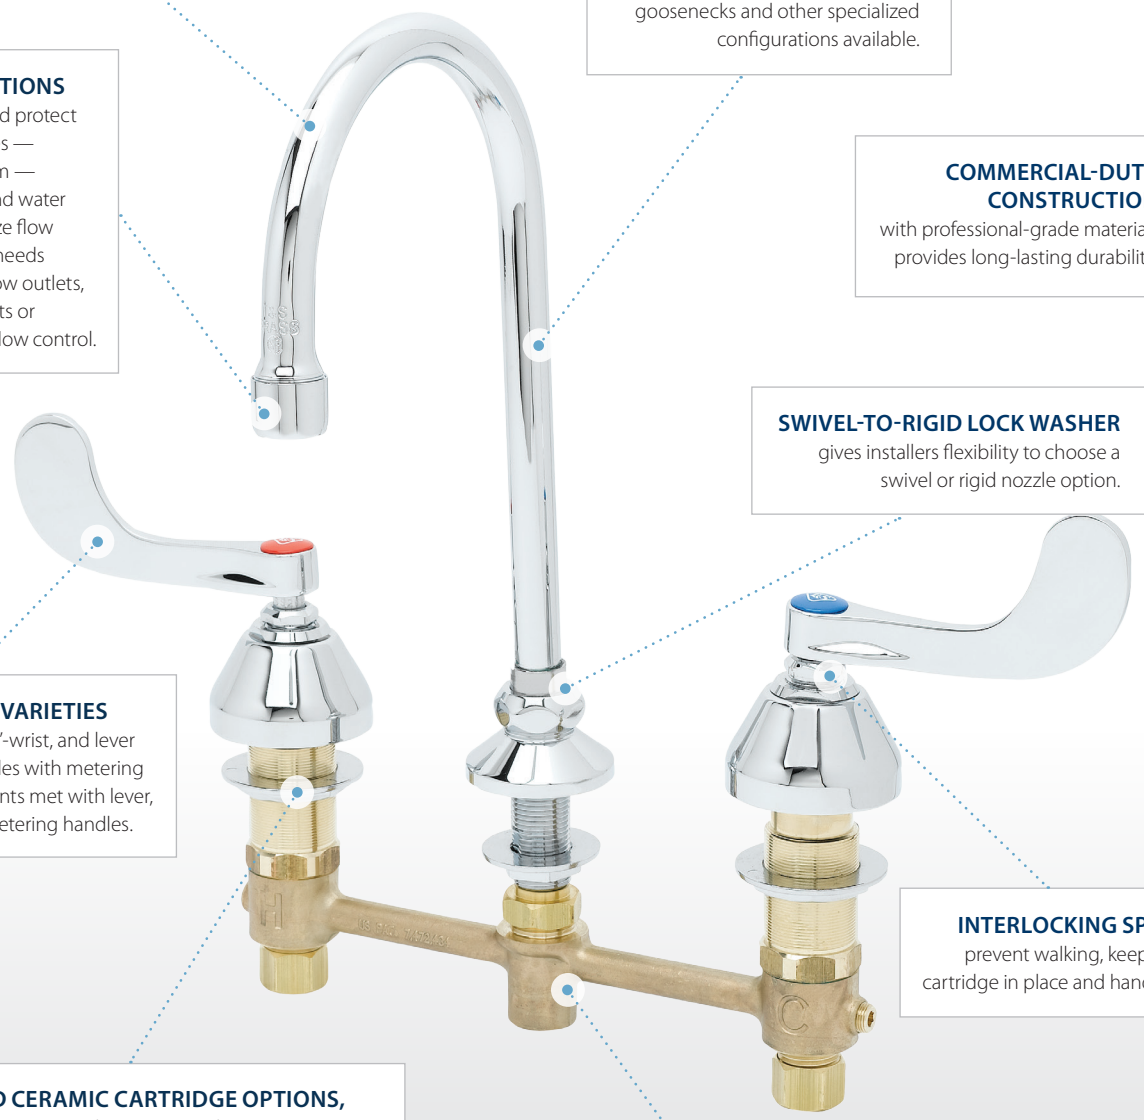

prevent walking, keeping the cartridge in place and handles set.

COMPRESSION AND CERAMIC CARTRIDGE OPTIONS,

quarter-turn design with two cartridge options to best suit your water conditions: Eterna compression with spring check (perfect for areas with harsh water conditions), or Cerama ceramic cartridges with check valve (rated to 180°F and featuring a lifetime warranty).

WIDE RANGE OF CENTER OPTIONS

available : (8" centers, 8" adjustable centers, flex stainless steel lines adjustable from 6"-24") to accommodate application needs.

MEDICAL AND LAVATORY DESIGNS
for reliability and function.

METERING OPTIONS AVAILABLE
with cycle adjustable from 10 to 30 seconds.

Easy Install

EASYINSTALL DESIGN MODELS AVAILABLE

that save up to 50% on installation time and labor costs, with pre-assembled components that eliminate potential leak points.

24-HOUR QUICK SHIP
gets you products fast.

CUSTOM UNITS
with optional accessories and interchangeable parts.
