**CUSTOMER  
SOLUTIONS**

ENSURING  
**SUSTAINABILITY**

DRAWN FROM  
**NEW INSIGHTS**

MITIGATING THE SPREAD OF  
**LEGIONNAIRES' DISEASE**

RESPONDING TO **HEALTHCARE NEEDS**

At T&S, we've been supplying reliable and durable plumbing products to the healthcare industry for more than six decades. From hand-wash and washdown solutions to safety-focused features that help prevent the spread of germs, T&S has the lineup and experience to meet the needs of this highly specialized market.

# NO MATTER THE CHALLENGE, T&S HAS YOU COVERED.

**PROBLEM:** Rising maintenance costs

**SOLUTION:** Cerama cartridges with a lifetime warranty

With T&S, you get reliability and cost savings built in. With only one moving part, Cerama cartridges are tested to over one million cycles without failure — far exceeding the industry standard for traditional cartridges.

**PROBLEM:** Spread of Legionnaires' Disease

**SOLUTION:** Plain-end spout and auto-flush

T&S offers plain-end spouts with no aeration to prevent germs from spreading into the air. Our auto-flush feature comes standard on all ChekPoint sensor faucets, automatically rinsing the system every inactive 12 hours to help prevent the spread of bacteria from stagnation.

**PROBLEM:** Energy/water cost/consumption

**SOLUTION:** Low-flow products

T&S' low-flow fixtures help save water and energy — and associated utility costs — by ensuring each faucet's flow rate is properly aligned for the task at hand.

## POPULAR HEALTHCARE MODELS

**B-0892-CR7XPF15**

Deck Mount 4" Centers, Plain-End Gooseneck, Cerama Cartridges, 1.5 GPM Flow Control, 4" Wrist Action Handles
