

Designed to last:

T&S METERING CARTRIDGE FAUCETS

VANDAL RESISTANT:

Includes #8 spanner bit for push button removal

HANDLE OPTIONS:

Single temperature or hot and cold handle options available. Pivot-action and wrist-action metering also available.

INDEPENDENT METERING FUNCTION:

Metering is separate from the water flow, keeping out debris and lengthening cartridge life

EASY ADJUSTMENTS:

Change metering timing with 3/32" hex key

DEBRIS RESISTANT:

Filter screen on bottom of assembly prevents debris from damaging stem seal

BROAD CYCLE RANGE:

Adjustable metering cycle from 10 to 30 seconds

ENCAPSULATED DESIGN:

Metering barrel has an encapsulated design

NO PLASTIC PARTS:

Unlike our competitors, all components are brass

INTERCHANGEABLE CARTRIDGES

Metering assembly is same on all cartridges.

ADA COMPLIANT

Factory set to 10 second metering cycle at 40psi.

MOST RELIABLE CONSTRUCTION

Commercial-grade materials for long-lasting durability.

BROAD RANGE OF FAUCETS

Over 70 different metering faucet configurations available.
