

A NAME YOU CAN TRUST:

HEAR FROM 5 ENGINEERS
WHO COUNT ON T&S EVERY DAY

JOE PHILBRICK, PE

TITLE:

Plumbing Department
Manager

FIRM:

AHA Consulting Engineers

TYPICAL PROJECTS:

Office buildings

“Our clients are looking to us to specify something that’s not going to give them any headaches. T&S is a very solid, reliable, dependable product. It’s becoming our mainstay for our specifications because you can install it and forget about it. And if there is an issue with the product, T&S is going to fix it.”

JEFF EDWARDS, CPD, GPD

TITLE:

Chief Plumbing
and Fire Protection

FIRM:

Mueller Associates

TYPICAL PROJECTS:

Higher education facilities,
institutions, museums

"The personal support I get from T&S Brass is just as important to me as their high product quality. I view this as a team, and T&S is easy to work with. From their expertise in the commercial field to regular visits from their reps, my clients and I get a great experience from T&S."

JOE TAGLIAFERRO, PE, LEED

TITLE:

Associate Principal

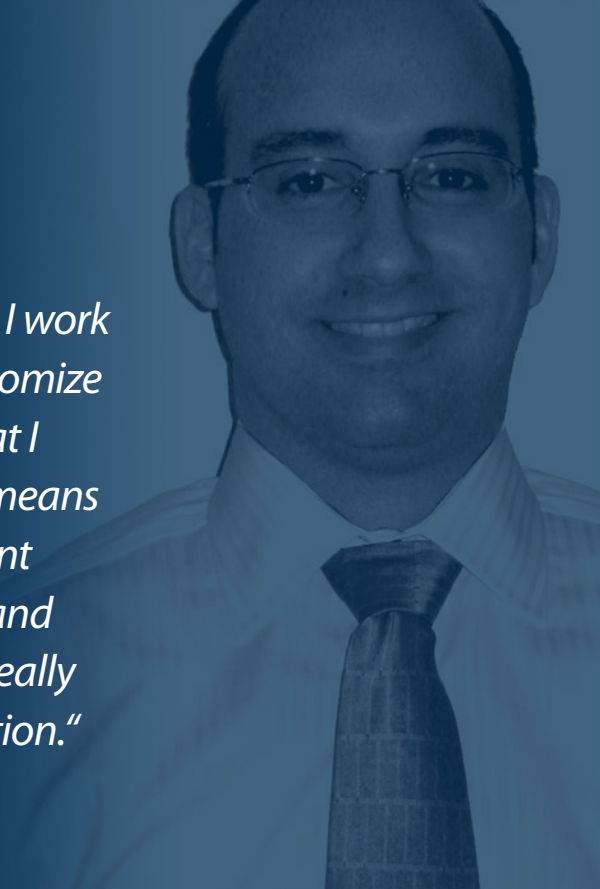

FIRM:

BR+A Consulting Engineers

TYPICAL PROJECTS:

Healthcare, hospitals,
research labs

"For specialized facilities like the ones I work on, I rely on T&S' ability to easily customize their products to get me exactly what I need. Their wide range of products means I don't have to specify a lot of different manufacturers for any one project, and their website makes it easy to find ideally matched products for every application."

STEVE CANNON

TITLE:

Project Manager

FIRM:

Wave Engineering

TYPICAL PROJECTS:

Hotels and hospitality,
restaurants, healthcare

“Restaurant and hotel owners want something that’s cost-effective but also looks good, even when it’s in the kitchen. They definitely don’t want to end up with cheaper faucets that continually need to be repaired or replaced. T&S is a go-to. It’s reliable stuff that we and our clients can count on.”

JOE SCERBO, CPD

TITLE:

Senior Plumbing Designer

FIRM:

2RW Consultants

TYPICAL PROJECTS:

K-12, higher education

"T&S always has what I'm looking for on a wide range of building needs, including some special features like the built-in check valves that protect against crossover in janitorial sinks. And T&S has really dependable products. I don't get called back from owners or contractors when I spec T&S, and the maintenance teams love that T&S doesn't wear out or break down."

IT'S TRUE:

more engineers than ever are specifying T&S products for a wide range of markets and applications. It's a name they trust – with a broad lineup and tools that make their job easier. With world-class support, T&S is there for every project, every time.

Visit [tsbrass.com](https://www.tsbrass.com) to explore our complete lineup of solutions, find access to Revit files and more. For more information, or to inquire about crossover assistance, contact your local T&S representative today.
