

Hospitality

Hospitality

For decades, T&S Brass has been supplying quality faucets and plumbing products to a wide variety of markets, including hospitality. With more than 60 years in the market, T&S has a deep understanding of the special challenges of hotel and hospitality settings, and has a range of products to help meet these unique needs.

Foodservice — As a leader in foodservice plumbing for more than 60 years, T&S offers quality products for all aspects of any hotel breakfast area, café, or restaurant, including pot fillers, glass fillers, faucets, pre-rinse units, gas hoses, and washdown hose reels.

Water and energy conservation — T&S has been a leader in water conservation for decades with various low-flow products, sensor and metering faucets, and low-leak cartridges. And with water savings comes energy savings as well, because less water needs to be heated for use in guest rooms or lavatory faucets.

Restrooms — With a wide range of plumbing products for restroom applications, T&S is the ideal company to help outfit a large number of restrooms throughout a building, both in public and guest spaces. Our lineup includes sensor faucets, metered faucets, single-lever faucets and decorative fixtures, all built to the T&S standard.

Niche usage — Whether you need to outfit a pool area, a fitness room, a locker/changing area, custodial closets, or laundry centers for guests or housekeeping, T&S has a wide range of plumbing and hose reel products for almost any hospitality need.

See the inside illustration to get an overview of where T&S products have been engineered to meet these needs and more in a typical hospitality setting.

Why choose T&S?

Quality and durability. T&S products are highly recognized throughout the industry as well-built, long lasting and durable. We test our products through millions of test cycles before failure—far more than regulations require and far more than our competitors.

Interchangeability. We create our parts to “mix and match,” making it easy to order the ideal product for any need. And part stocking is simplified because there are fewer proprietary replacement parts to keep on hand.

Water conservation. T&S has been a leader in water conservation for decades, before “green” was “in.” We now offer more water-saving components than ever

before, including one of the world’s highest-performing and lowest water use pre-rinse spray valves.

Family owned. Although we’ve been growing for more than 60 years, we’re still family owned, helping us to move quickly to take care of our customers in a personal way that the giants can’t match.

Fast shipping. Our exclusive 24-hour Quick Ship program ensures that orders received before noon are processed the same day.

About T&S

With a steadfast commitment to quality, T&S Brass has set industry standards for more than 60 years and introduced a number of plumbing innovations, including the market's first pre-rinse unit and the foot pedal valve.

Today, T&S manufactures and sells faucets, fittings, specialty products and accessories for foodservice, industrial, commercial plumbing, and laboratory markets. Its products have become the standard for the majority of U.S. hospitals, schools, restaurants, prisons, and public facilities.

At our headquarters in Travelers Rest, SC, our associates take pride in consistently delivering the finest in craftsmanship and service. We produce more than 5,000 quality products and parts that meet the requirements of the Buy American Act.

T&S sells meticulously designed and rigorously built products on nearly every continent. Still family owned and operated, reliability remains the fundamental principle behind everything we do.
