

Cruise Line Brochure

T&S CRUISE LINE BROCHURE

ABOUT T&S

T&S Brass and Bronze Works, Inc. is a leading manufacturer of faucets, fittings and specialty products and accessories for the foodservice, industrial, commercial plumbing and laboratory markets. Founded in 1947, the company introduced the industry's first pre-rinse unit, followed by key innovations like the foot pedal valve over the next decade.

T&S products are highly acclaimed throughout the industry for being well-built, long-lasting and reliable. Rigorous testing and a focus on interchangeability have helped set T&S apart from the competition for 75 years.

Today, more than 200 employees manufacture products and serve customers from the company's main headquarters in South Carolina, United States – with many more working behind the scenes at distribution facilities in California and China. In the last two decades, T&S has significantly increased its overseas presence, with representatives now selling products in Europe, Australia, the Middle East, Canada, Japan, southeast Asia and South America.

A HISTORY OF EXCELLENCE

T&S Brass and Bronze Works has built a reputation for quality, service and innovation for 75 years – beginning with our original pre-rinse unit, the market's very first. Today, our products have become the standard for many U.S. hospitals, schools, restaurants, supermarkets and public facilities.

T&S products are highly acclaimed throughout the industry for being well-built, long-lasting and reliable. Rigorous testing and a focus on interchangeability have helped set T&S apart from the competition.

RELIABILITY BUILT IN™

Why T&S?

LOW COST OF OWNERSHIP BUILT IN

6 Reasons To Choose T&S Products:

Quality and Reliability

T&S products are highly acclaimed throughout the industry: well-built, long-lasting and reliable. Our rigorous testing sets T&S apart from the competition.

Superior Customer Service and Technical Support*

Customers love our world class Customer Service support - available worldwide! We also provide how-to videos and many other technical support resources on our website, tsbrass.com.

Interchangeability

Within the product line, you can exchange parts and customize each product to suit your needs, no matter your application!

Spare Parts Availability

Our spare parts are stocked globally, so getting the parts you need for repair is fast and easy.

Low Cost of Ownership

T&S products are designed and built for the most heavy-duty commercial applications. High quality design means less money spent on repairs. Cost of Ownership, Built In.

Modular Design and Ease of Installation

We design our product assemblies with our customers in mind for time-saving installation and easy maintenance.

EC-3100

Other Models	Description
EC-3100	With 8.3 L/min (2.2 GPM) Vandal Resistant Aerator
EC-3100-HG	With EC-HYDROGEN Hydro-Generator
EC-3100-VF05	With 1.9 L/min (0.5 GPM) Vandal Resistant Spray Outlet
EC-3100-VF05-HG	With 1.9 L/min (0.5 GPM) Vandal Resistant Spray Outlet & EC-HYDROGEN, Hydro-Generator

EC-3100 Series Sensor Faucets

- (EN)** High quality and highly reliable sensor faucets with with options including vandal-resistant aerator and low-flow with programmable flow time, activating distance, autoflush function to prevent stagnation of water, equipped with particle filter and manual mixing valve for water temperature with check-valves. All models can be powered by one or more of the following: T&S EC-Hydrogen power supply, batteries, AC/DC power supply. Supply hoses with 3/8" female connection. Brass, chrome-plated.
- (ESP)** Grifos con sensor de alta calidad y muy confiables con opciones que incluyen aireador a prueba de vandalismo y caudal bajo con tiempo de salida de agua, distancia de activación y función de descarga automática programables para evitar el estancamiento de agua, equipados con filtro de partículas y válvula mezcladora manual para la temperatura del agua con válvulas de retención. Todos los modelos pueden funcionar con una o más de las siguientes opciones: fuente de alimentación EC-Hydrogen de T&S, baterías, suministro de energía de CA/CD. Mangueras de suministro con conexión hembra de 3/8". Bronce cromado.
- (GER)** High Quality-Sensor-Waschtischarmatur mit Vandalismus geschütztem Strahlregler und Low-Flow-Option. Programmierbare Einstellungen - Laufzeit, Aktivierungsabstand, Freispülung zur Vermeidung von Stagnationswasser. Ausgestattet mit Partikelfilter und manuellem Regelventil für die Wassertemperatur mit Rückflussverhinderern. Alle Modelle können in Kombination oder einzeln mit dem T&S EC-Hydrogenerator, Batterien oder Steckernetzteile betrieben werden. Anschlussschläuche mit 3/8" Innengewinde (beiliegend). Messing, glanzverchromt.
- (FR)** Robinets à capteur de haute qualité et très fiables avec des options incluant un aérateur anti-vandalisme et faible débit avec durée d'écoulement, distance d'activation programmables, fonction de rinçage automatique pour éviter la stagnation de l'eau, équipés d'un filtre à particules et d'un mélangeur manuel pour la température de l'eau avec clapets anti-retour. Tous les modèles peuvent être alimentés par une ou plusieurs des options suivantes : T&S CE-Alimentation en hydrogène, batteries, alimentation CA/CC. Flexibles d'alimentation avec raccord femelle 3/8 po.. Laiton chromé.
- (ITA)** Rubinetti a fotocellula di alta qualità e alta affidabilità con vari dispositivi tra cui rompigetto antivandalo, portata ridotta con tempo di erogazione regolabile, distanza di attivazione regolabile e risciacquo automatico programmabile per evitare il ristagno dell'acqua. Dotati di filtro antiparticolato e levetta manuale per la miscelazione dell'acqua, con valvole di ritegno. Tutti i modelli possono essere alimentati nei seguenti modi, singolarmente o in combinazione tra loro: Alimentatore T&S EC-Hydrogenerator, batterie, presa di corrente. Flessibili di alimentazione con raccordo femmina 3/8". Ottone cromato.

(EN) T&S Europe Chekpoint line – High quality and highly reliable sensor faucets with vandal-resistant aerators and low flow option with programmable – flow time, activating distance, autoflush function to prevent stagnation of water, equipped with particle filter and manual mixing valve for water temperature with check-valves. All models can be powered by one or more of the following options: T&S EC-Hydrogen power supply, batteries, AC/DC power supply. Supply hoses with G $\frac{1}{2}$ " female and adapters for G $\frac{3}{8}$ " female connection.

(ESP) Brass, chrome-plated.

Línea Europe Chekpoint de T&S: Grifos con sensor de alta calidad y muy confiables con aireadores a prueba de vandalismo y opción de caudal bajo con tiempo de salida de agua, distancia de activación y función de descarga automática programables para evitar el estancamiento de agua, equipados con filtro de partículas y válvula mezcladora manual para la temperatura del agua con válvulas de retención. Todos los modelos pueden funcionar con una o más de las siguientes opciones: fuente de alimentación EC-Hydrogen de T&S, baterías, suministro de energía de CA/CD. Mangueras de suministro con G $\frac{1}{2}$ " hembra y adaptadores para conexión G $\frac{3}{8}$ " hembra. De latón, cromadas.

(GER)

T&S Europe Chekpoint line - High Quality-Sensor-Waschtischarmatur mit Vandalismus geschütztem Strahlregler und Low-Flow-Option. Programmierbare Einstellungen - Laufzeit, Aktivierungsabstand, Freispülung zur Vermeidung von Stagnationswasser. Ausgestattet mit Partikelfilter und manuellem Regelventil für die Wassertemperatur mit Rückflussverhinderern. Alle Modelle können in Kombination oder einzeln mit dem T&S EC-Hydrogenerator, Batterien oder CE-Zertifiziertem Steckernetzteil betrieben werden. Anschlussschläuche mit G $\frac{1}{2}$ " IG oder G $\frac{3}{8}$ " IG Adapter (beiliegend). Messing, glanzverchromt.

(FR)

Ligne Chekpoint T&S Europe - Robinets à capteur de haute qualité et très fiables avec aérateurs anti-vandalisme et option de faible débit avec durée d'écoulement, distance d'activation programmables, fonction de rinçage automatique pour éviter la stagnation de l'eau, équipés d'un filtre à particules et d'un mélangeur manuel pour la température de l'eau avec clapets anti-retour. Tous les modèles peuvent être alimentés

(ITA) par une ou plusieurs des options suivantes : T&S EC - Alimentation en hydrogène, batteries, alimentation CA/CC. Flexibles d'alimentation avec G $\frac{1}{2}$ po. femelle et adaptateurs pour connexion G $\frac{3}{8}$ po. femelle. En laiton chromé.

Linea T&S Europe Chekpoint - Rubinetti a sensore di alta qualità con aeratori antivandalo e opzione a bassa portata. Impostazioni programmabili - tempo di erogazione, distanza di attivazione, funzione di risciacquo automatico per evitare il ristagno dell'acqua. Dotati di filtro antiparticolato e levetta manuale per la miscelazione dell'acqua, con valvole di ritegno. Tutti i modelli possono essere alimentati nei seguenti modi, singolarmente o in combinazione tra loro: Alimentatore T&S EC-Hydrogenerator, batterie, presa di corrente certificata CE. Flessibili di alimentazione con raccordo femmina G $\frac{1}{2}$ " oppure femmina G $\frac{3}{8}$ " (adattatore incluso). Ottone cromato.

B-1215-12 Glass Fillers

- (EN)** Hygienic glass and bottle filler for connection to the drinking water network, for tabletop-mounted installation in different mounting heights or for wall mounting or with a direct stainless-steel drain sink. Connection 1/2" NPT, compatible with G1/2". With optional filter cartridge as an accessory.
- (ESP)** Estación higiénica de llenado de vasos y botellas para conexión a la red de agua potable, para instalación sobre mesa a diferentes alturas o para montaje en pared o con pila de desagüe directo de acero inoxidable. Conexión de 1/2" NPT compatible con G1/2". Con cartucho de filtro opcional como accesorio.
- (GER)** Hygienischer Glas- und Flaschenfüller zum Anschluss an das Trinkwassernetz für Auf Tischmontage in verschiedenen Montagehöhen oder für Wandmontage oder direkt mit Edelstahl-Abflussbecken. Anschluss 1/2" NPT, kompatibel zu G1/2". Mit Filterkartusche als optionales Zubehör.
- (FR)** Remplisseur de verres et de bouteilles hygiénique pour le raccordement au réseau d'eau potable, pour une installation sur table à différentes hauteurs de montage ou pour un montage mural ou avec un évier à évacuation directe en acier inoxydable. Raccordement 1/2 po. NPT, compatible avec G1/2 po. Avec une option de cartouche filtrante en accessoire.
- (ITA)** Erogatore per il riempimento di bicchieri e bottiglie da collegare alla rete dell'acqua potabile. Da banco con colonnina disponibile in diverse altezze, a parete o con vassoio in acciaio inox con griglia e piletta. Raccordo 1/2" NPT, compatibile con G 1/2". Accessorio opzionale: cartuccia filtro.

EC-1210-xx Sensor Glass Fillers

- (EN)** High quality and highly reliable sensor faucets with with options including vandal-resistant aerator and low-flow with programmable flow time, activating distance, autoflush function to prevent stagnation of water, equipped with particle filter and manual mixing valve for water temperature with check-valves. All models can be powered by one or more of the following: T&S EC-Hydrogen power supply, batteries, AC/DC power supply. Supply hoses with 3/8" female connection. Brass, chrome-plated.
- (ESP)** Grifos con sensor de alta calidad y muy confiables con opciones que incluyen aireador a prueba de vandalismo y caudal bajo con tiempo de salida de agua, distancia de activación y función de descarga automática programables para evitar el estancamiento de agua, equipados con filtro de partículas y válvula mezcladora manual para la temperatura del agua con válvulas de retención. Todos los modelos pueden funcionar con una o más de las siguientes opciones: fuente de alimentación EC-Hydrogen de T&S, baterías, suministro de energía de CA/CD. Mangueras de suministro con conexión hembra de 3/8". Bronce cromado.
- (GER)** High Quality-Sensor-Waschtischarmatur mit Vandalismus geschütztem Strahlregler und Low-Flow-Option. Programmierbare Einstellungen - Laufzeit, Aktivierungsabstand, Freispülung zur Vermeidung von Stagnationswasser. Ausgestattet mit Partikelfilter und manuellem Regelventil für die Wassertemperatur mit Rückflussverhinderern. Alle Modelle können in Kombination oder einzeln mit dem T&S EC-Hydrogenerator, Batterien oder Steckernetzteil betrieben werden. Anschlussschläuche mit 3/8" Innengewinde (beiliegend). Messing, glanzverchromt.
- (FR)** Robinets à capteur de haute qualité et très fiables avec des options incluant un aérateur anti-vandalisme et faible débit avec durée d'écoulement, distance d'activation programmables, fonction de rinçage automatique pour éviter la stagnation de l'eau, équipés d'un filtre à particules et d'un mélangeur manuel pour la température de l'eau avec clapets anti-retour. Tous les modèles peuvent être alimentés par une ou plusieurs des options suivantes : T&S CE-Alimentation en hydrogène, batteries, alimentation CA/CC. Flexibles d'alimentation avec raccord femelle 3/8 po.. Laiton chromé.
- (ITA)** Rubinetti a fotocellula di alta qualità e alta affidabilità con vari dispositivi tra cui rompigitto antivandalo, portata ridotta con tempo di erogazione regolabile, distanza di attivazione regolabile e risciacquo automatico programmabile per evitare il ristagno dell'acqua. Dotati di filtro antiparticolato e levetta manuale per la miscelazione dell'acqua, con valvole di ritegno. Tutti i modelli possono essere alimentati nei seguenti modi, singolarmente o in combinazione tra loro: Alimentatore T&S EC-Hydrogenerator, batterie, presa di corrente. Flessibili di alimentazione con raccordo femmina 3/8". Ottone cromato.

T&S DIPPERWELL FAUCETS

Optional Spare Parts

Spare Part	Description
B-0199-06-LF15A	Vandal Resistance 5.7 L/min (1.5 GPM) Laminar Flow Device with Key
EC-HARDWIRE	Hardwire AC Transformer (100-240VAC - 6.5VDC / 2000mA)
EC-HYDROGEN	Hydro-Generator, For 3.79 - 8.33 L/min (1.0 - 2.2 GPM)
B-WKF	Water Filtration Kit
B-WFC	Water Filtration Cartridge

B-2282

006678-45

Other Models	
B-2282	Dipperwell Faucet, 26.80 L/min (7.08 GPM) & ½" NPSM Male Inlet
B-2282-01	With 006678-45 Stainless Steel Bowl Assembly
006678-45	Dipperwell Bowl

B-2282 Dipperwell Faucets and Bowl

- (EN)** "Dipper Well" system for storage of, e.g., confectioner's knives, ice cream scoops, etc., with continuous, adjustable water exchange with overflow protection. Stainless steel bowl, chrome-plated brass faucet
- (ESP)** Sistema de pila con grifo abierto para el almacenamiento de, por ejemplo, cuchillos de pastelería, cucharas para helado, etc., con intercambio de agua continuo y ajustable con protección contra rebalse. Cuenco, acero inoxidable, accesorio, latón, cromado brillante.
- (GER)** "Dipper Well" - System zum Aufbewahren von z.B. Konditormessern, Eisportionieren, etc. mit kontinuierlichem, regelbarem, Wasser-austausch mit Überlaufschutz. Behälter, Edelstahl, Armatur, Messing, glanzverchromt.
- (FR)** Système « Dipper Well pour le stockage, par exemple, de couteaux de pâtisseries, cuillères à glace, etc., avec renouvellement d'eau en continu et réglable avec protection contre le débordement. Cuve, acier inoxydable, raccord, laiton chromé brillant.
- (ITA)** Sistema "Dipper Well" per il posizionamento di utensili quali, ad esempio, coltelli da pasticceria, porzionatori o palette per il gelato. Ricambio di acqua continuo e regolabile, con protezione troppopieno. Contenitore in acciaio inossidabile, rubinetto in ottone cromato.

T&S WaterWatch™

A whole new way to monitor water consumption and protect your facility.

Imagine knowing when a faucet or fixture begins to leak — or getting an alert when a catastrophic water failure occurs. Not only is this kind of real-time information critical for protecting your facility, it's also the key to managing your overall water usage and saving money in the long run.

Introducing T&S WaterWatch: it's a true foodservice first — giving operators a cost-effective solution for monitoring water consumption, detecting leaks and optimizing conservation measures.

TSB-2020

HOW DOES T&S WATERWATCH WORK?

T&S WaterWatch uses a non-invasive smartphone-sized device that **attaches to your facility's main water line**. By listening to the unique sound signatures of the water flow, T&S WaterWatch collects thousands of measurements every second from the pipe and translates those measurements to accurate water insights — **identifying exactly which fixtures are using water** and for how long. T&S WaterWatch can even distinguish between simultaneous water use events.

.....
All it takes is a 7-day learning period, **using your facility's WiFi connection**, for T&S WaterWatch to provide daily consumption updates and real-time leak detection. **Using special algorithms** and machine learning, T&S WaterWatch identifies abnormal usage and **sends alerts** to immediately notify operators of major leaks so that corrective action can be taken. Reports are easily accessible using a mobile app or PC and provide information on smaller potential leak events and a more comprehensive understanding of your facility's overall water usage.

For more information and pricing, please contact us directly at internationalsales@tsbrass.com or visit <https://www.tsbrass.com/resources/literature/waterwatch>

Antimicrobial Handles

Make a great faucet even better

T&S is proud to offer a superior antimicrobial finish on our handles.

Antimicrobial coating is designed and intended to last the life of the product.

Order your new faucets with antimicrobial handles, or quickly retrofit your existing T&S faucets.

NEW! ULTRARINSE™

A Versatile Add-On Faucet/Rinser with Adjustable Fan Spray Tips

A T&S innovative feature for our patented ULTRARINSE™ Pre-Rinse Units and Faucets

- Fan spray tips are angled to maximize surface area contact and clean and rinse more quickly
- Hands-free operation allows for efficient two-handed work
- UltraRinse provides constant, gentle low-flow of water with each spray tip's flow rate at 5.68 L/min (1.5 GPM)
- Perfect as a vegetable rinser and for thawing frozen foods
- Quickly cleans and rinses away particulates and bacteria
- Saves water and reduces food damage and waste
- Retrofit Kits available for T&S pre-rinse units and faucets

Note: T&S UltraRinse is only compatible with T&S B-line product

All with the reliability, quality, and sustainability you've come to expect from T&S.

B-0133-U12-B ULTRARINSE PRE-RINSE UNIT

- 254 mm (10") UltraRinse
- 305 mm (12") add-on faucet nozzle

UltraRinse Features:

- 1 3 Fan spray aerator tips on 254 mm (10") UltraRinse (available with 5 tips, shown below)
- 2 UltraRinse has dual functions – Adjustable handle switches between Spray and Fill:
 - **Spray** 1 Activates spray fan tips
 - **Fill** 3 Activates nozzle

- Also available:
- **ULTRARINSE 406 mm (16") with 5 tips**
 - With 457 mm (18") swivel nozzle

B-0201-U12 ULTRARINSE FAUCET

- **ULTRARINSE 254 mm (10") with 3 tips**
- With 305 mm (12") swivel nozzle
