Healthcare 医疗保健行业

For decades, T&S Brass has been supplying quality faucets and plumbing products to a wide variety of markets, including hospitals, nursing homes, and doctors' offices. With more than 60 years in the market, T&S has a deep understanding of the special challenges of the healthcare market, and has a range of products to help meet these unique needs.

数十年来，T&S向各个领域提供高品质的商用五金产品（包括医院，医疗护理机构和医师办公室）。60多年来，每一件天仕产品，都展现了行业的最高标准。因为关注，所以专业。T&S针对医疗保健领域研发的产品，能满足这个行业的独特专业需求。

“Lead-free” — Legislation in several states restricts the amount of lead in plumbing fixtures to less than .25 percent. T&S makes a complete line of products compliant with these requirements, and all are suitable for use in healthcare applications.

“Lead-free” — 美国几个州政府立法要求五金产品中铅含量必须小于0.25%。T&S拥有完全满足此项法律的产品线，提供更健康的优质产品。

Antimicrobial — Hygiene is a critical consideration in a healthcare setting, with parts and products that clean easily and stay more sanitary between washings. T&S makes a line of products with antimicrobial coating, keeping plumbing surfaces cleaner by inhibiting the growth of microbes that can cause illness and disease.

抗菌概念 — “清洁卫生”在整个医疗卫生中是最重要的。T&S提供一系列具有抗菌涂层的产品，确保五金产品表面不易滋生细菌，远离疾病。

Water and energy conservation — T&S has been a leader in water conservation for decades with various low-flow products, sensor and metering faucets, and low-leak cartridges. In addition to water savings, energy is saved as well, because less water needs to be heated in lab or lavatory faucets.

节水环保 — T&S公司始终保持着节水环保产品的领先地位。我们提供各种低流量的产品、感应龙头、计量式龙头、防漏阀芯。帮助客户节省水费的同时，也节约了加热水所需的各种能源费用。

Labs, surgical areas, patient rooms, and kitchens — T&S makes quality products for a wide range of specific applications in the healthcare setting, including washdown (morgue rooms, bedpans, loading docks, kitchens); handwashing (surgical areas, doctors' offices, patient care areas, laboratories); and general water use (kitchens, labs, locker rooms, pharmacies).

See the inside illustration to get an overview of where T&S products have been engineered to meet these needs and more in a typical healthcare setting.
