

We're taking reliability TO THE NEXT LEVEL.

When high volume demands the highest performance, you can count on T&S DuraPull — an all-new line of reliable pre-rinse units featuring an industry-best **seven-year warranty**. With a premium design that feels right at home in any high-end kitchen, each pre-rinse unit offers pull-down activation that allows users to easily switch water flow on and off.

Not only does the unit's pull-down activation and automatic shut-off function reduce stress and fatigue on the operator, it also eliminates the spray valve handle and hold-down ring — making it easy to conserve water.

1.07 GPM
spray valve
flow rate meets
2019 DOE regulations

SAME HEIGHT AND REACH
as traditional pre-rinse units

SIMPLY PULL DOWN
to activate water flow

SWIVEL
allows 360° rotation of spray valve

RIGOROUS LIFECYCLE TESTING
far exceeds industry standards

TEE ASSEMBLIES
are available as standard

Highly **DURABLE CERAMIC CARTRIDGES** come standard

ADD-ON FAUCETS
come standard on many base models

There's a T&S DuraPull for any installation need.
